

Ticket Station

UDC

Quickly turn tickets into securely printed receipts saving you both time and money, enabling you to operate more efficiently. The small footprint cabinet comes with a single 'Ticket Door' as standard and can be quickly updated to two, three or four stations. The unit is able to hold up to 250,000 tickets inside. The patented scissor cutter cleanly cuts all tickets inserted with the minimum of dust and fuss.

The unit contains two power supply units and each door uses a self contained controller for additional redundancy and reliability. Digital motors provide torque control and auto shut-down to protect against damage. Password protected accounting functions keep track of tickets counted. UDC supplies secure printed thermal rolls to prevent customers attempting to defraud you.

Use a barcode to prevent competitors tickets being counted. Doubled sided barcode reader allows for additional branding space on a barcoded ticket. Compatible with a wide range of card and swipe systems.
