# Candy Bot

Attractive robot styled candy vending machine, suitable for wrapped sweets such as lollipops or small cylindrical packs of sweets.

The customer inserts their coins and presses the start button to stop the spinning light in the robot face to select the number of sweets to be won. The customer wins every time, so the game works like a vending machine with the chance of being awarded extra bonus packs or lollies every time. Kids love the low height design and the fun bright artwork.

width 65 cm 25.5 inches
