

Compact Ticket Station

UDC

Quickly turn tickets into securely printed receipts saving you both time and money, enabling you to operate more efficiently.

The tiny footprint cabinet is equipped with two ticket readers. The unit is able to hold over 100,000 tickets inside. The patented scissor cutter cleanly cuts all tickets inserted with the minimum of dust and fuss. Use your own barcoded redemption ticket to prevent competitors tickets being counted. The doubled sided barcode reader allows you to use one side of barcoded ticket for your own branding. Compatible with a wide range of card and swipe systems and Benchmark Prize Station.

The password protected accounting functions keep track of tickets counted. Uses security printed thermal paper rolls.

Available in 2 configurations:

Side-by-Side (*shown right*) is perfect for locating in a corner location.

Back-to-Back has readers on opposite sides and is great as an island.

[side by side]
