Model shown
features optional monitor

width	76 cm	30 inches
depth	76 cm	30 inches
height	238 cm	93 inches
weight	128 Kg	325 lbs

Introducing the newest generation Ticket Station - with all the capabilities of prior models including brand new features:

Handles redemption tickets of different lengths - use regular and half-size tickets. Program to recognise multiple barcodes. Allows operators to use more than one ticket at once - even assign a different value per barcode/ticket.

Enhanced sounds: new audio prompts with munching sounds when eating tickets.

Updated with attractive graphics and new header for increased visual appeal.

Interior and exterior RGB LED lights with visually appealing new effects whilst being used.

Interactive learning mode for programming new tickets - teach a new ticket configuration length and barcode details quickly and easily.

Improved Security - you can program which barcodes will, or will not, be accepted. Run time limited promotions. Refuse competitor tickets.

Easily adaptable to the following uses:

- Tickets In >> Printed receipt
- Tickets In >> Swipe/Tap Card to collect points
- Tickets In >> Choice of either receipt or card

Optional video displays - add 1 to 4 screens. Program an SD card with videos and display on monitors to promote birthdays, food and drink special offers, prizes, events and more.

1 ticket reader included as standard - expand to accommodate up to 4 ticket readers at any time.
